**COPY MAILED**  
**JAN 22 2010**

Applicant: Reginald Charles Allsopp  
Appl. No.: 10/596,824  
International Filing Date: February 3, 2006  
Title: WINDOW BLIND SYSTEM  
Attorney Docket: 2006-2938.ORI  
Pub. No.: US 2009/0205787 A1  
Pub. Date: August 20, 2009

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on September 10, 2009 for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error on the front page of the application wherein the title of the invention “WINDOW BLIND SYSTEM” was misprinted as “IMAGE ANALYSIS SYSTEM”.

37 CFR 1.221 (b) is applicable “only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable.” A material mistake must affect the public’s ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The error on the front page of the publication wherein the title of the invention was misprinted may be an Office error, but it is a not material Office error under 37 CFR 1.221. The error does not affect the understanding of the application. The mistake does not affect the public’s ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

---

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

It is noted that the National Stage Entry request and preliminary amendment state that the title is "Image Analysis System".

On May 14, 2009, a Filing Receipt was mailed by the Office, which improperly listed the title of the invention. To avoid this type of problem in the future, applicant's representative should correct the error and make a request for a corrected filing receipt prior to export of the application to the publisher and publication of the application.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221 (a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18 (d) and the processing fee set forth in § 1.17 (i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18 (d) will be refunded. The processing fee will be retained.

A guide for filing a request for a Pre-Grant Publication, such as a request for republication, may be found on the link below:

<http://www.uspto.gov/ebc/portal/tutorials.htm>

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system, as a "Pre-Grant Publication".
